- Task 2: for the page <https://timmyomahony.com/> I have identified y 2 colors used repeatedly as part of the site's color scheme:

background-color: rgb(240 240 232/var(--tw-bg-opacity));

color: rgb(0 0 0/var(--tw-text-opacity));

-Task 3: user story by referencing to youtube:

On YouTube, each of us in the family has a profile to watch our favorite channels. When I use the iPad, I click on the photo at the bottom of the username and the option to change account, among others, is displayed. Then a window opens with all the accounts and I choose mine.

- Task 4: Identify the prime objective of Facebook, Twitter, Google, and Youtube.

The main common prime objective is that the user spend as much time as possible using the application.
